**Subject:** Give Portland a Healthy River

Dear Administrator Gina McCarthy,

I'm concerned the Willamette Superfund Cleanup process might put corporate profits before public health and safety.

I'd like to see a plan to remove the maximum amount of contaminated sediments from the river and upland areas. People (and birds) should be able to eat fish out of the Willamette.

The plan should specify when fish consumption advisories will be lifted.

The cleanup plan should provide jobs for local contractors.

Thank you.

Sincerely,
